"Rob knows how to keep the atmosphere creative and fun. His love for all things music is not only impressive, but inspiring. He's also a good man, and that's every bit important to me as his skills."

**Gregory Hines**  
Tony Award-winning dancer and actor

"In addition to all your top standards like the Neve console and Apogee filters, I was most impressed by the live room with its changeable surfaces which give creative versatility to your room ambient mics. Rob's extensive knowledge of micing techniques really makes the difference."

**Machine**  
Producer

"I've been making the trip from New York for 15 years for two very good reasons - Rob's ears. Combine that with his killer new sound room and instinct, plus the overall warmth (and I don't just mean in the mix) and as far as I'm concerned, they're worth the trip from anywhere."

**Sam Ash**  
VP/Creative Director  
MSA New York

"Rob's ability to combine his recording skills with his musicality makes him an asset to any project. He is extremely organized, meets deadlines and works well in collaborations under pressure."

**Randy Klein,**  
Jazzheads Records and Slider Music
